5. Book Contract

Are signed and will be bound by study store. Digital version will be send to the study associations and when finished the bound version will be send as well.

Rens and committee understand that the signing had short time scale, but before Tuesday nobody had complained and date was set. After that, it was too late and the signing could not be postponed anymore.

Idefix asked why this choose was made:

Rens: everybody knew that signing was coming and the contract had been checked already a couple of times, therefore the committee thought this could be done fast. And if this time period was to short they had expected to be notified before the Tuesday.

Idefix: Why was not a document with the changes was send with the contract?

The document had been made but the committee had not thought about sending it around. It can still be send around.

AP Oxan send document with changes around
