Evaluation

The KIOSK has done its job this year. Every association had a stand. There were enough fancy snacks and drinks. However some remarks can be made:

- The communication between the associations and KIOSK started a little bit late. The consequence was that the information about the event came a couple days before the date which was too late. However it was not a real problem.
- There were too many bottles juice.
- The “OS stand” had no flag or merchandise. The stand was a bit plain, which did not look inviting.
