

Provisional StOF Allocation

Organisation of Study Associations | Document 202511.04

Preface

OS received the requests for StOF grants for the academic year of 2025-2026. These requests consisted of requests for board and committee grants. OS has evaluated these provisional requests according to OSSA (*OS StOF Allocation*). Within this document, the results of which provisional requests got approved according to OSSA can be found.

The OS Board will use the division in this document for the negotiations with other umbrellas, in line with the procedure laid out in the OSSA. Note that the divisions voted upon in the OS General Members Assembly (GMA) are always subject to changes made in the meetings with the other umbrellas and the Student Union.

The following StOF requests were made in the Provisional StOF Request Phase November 2025. When going through the requests, it was noticed that the number of treasurer, external, and educational support committees was surprisingly high. For these we would like to highlight article 5 point 2a, which states that Board-Task committees need to alleviate function-specific tasks from the entirety of the board. In other words, these committees should replace a function within a board. Some of these committees were approved, as these do take over an entire function that would otherwise be missing within the specific board year.

Moreover, this document has not been influenced by the Provisional StOF Proposition, which states a proposal for part-time non-EEA board members.
