

Provisional StOF Distribution

Organisation of Study Associations | Document 202602.06

Preface

In November of 2025, a provisional distribution of StOF grants for the academic year 2025-2026 was created. This distribution consisted of grants for board members and committees. In February, the OS board again asked associations to hand in their workloads and new committee requests. OS has now evaluated these workloads and requests, and the provisional StOF distribution has been updated accordingly. All changes in this distribution compared to the previous provisional distribution are stated in red text.

Additionally, a few associations have been contacted by OS about their workload in the past months. In some cases, the workloads were adjusted after discussion. This has been updated in this provisional distribution. Furthermore, the proposal of the OS board regarding additional compensation of non-EEA board members has been included in this provisional distribution.

The OS Board will use the division in this document for the negotiations with other umbrellas, in line with the procedure laid out in the OSSA. Note that the divisions voted upon in the OS General Members Assembly (GMA) are always subject to changes made in the meetings with the other umbrellas and the Student Union.

For questions regarding this document, please contact either Leon (ctw@os.utwente.nl) or Victor (bms@os.utwente.nl)

Boards

Within this section, the 21 study association boards that fall under OS are given the provisional number of grants. The non-EEA grants are included as a separate column per association.

Committees

Within this section, the approved committees that fall under OS study associations are given their provisional number of StOF grants. The number of grants was distributed based on the previous provisional distribution, the addition of IT committees as board task committees, and additional requests made during the February phase.
